

English 11A
Summer Reading Assignments
2018

Dear 11A students,

Welcome to Accelerated English! I'm already excited about studying the wonders of the written and spoken word with you. To prepare, complete the following assignments over the summer. There will be an assessment at the beginning of the year, so make certain that you have completed each of the tasks outlined below and bring everything with you to class on **Friday, September 7th**. Any student who comes unprepared will be strongly encouraged to withdraw from this class.

Happy reading,
Mrs. Franke

jfranke@k12.tullyschools.org

Assignment #1:

- ★ Read *Outliers: The Story of Success* by Malcolm Gladwell. As you read, look up words and allusions you are not familiar with. Make connections and ask questions. Engage with the text in all the ways I know you have been practicing with Mrs. Elmer. Use the note-taking sheets provided to record the claim of each chapter as well as the evidence used to support the claim. Then write a summary statement for each chapter that explains how the chapter supports the overall thesis of book.
- ★ Type 1-2 paragraph responses to discussion questions 1, 6, 8, and 9. These discussion questions can be found at the back of the book. My expectation is that your responses will reflect your best writing: they should be organized, insightful, well-developed, and grammatically correct. Dazzle me with what you can do!

Assignment #2:

- ❖ Read a memoir of someone you find interesting. (It goes without saying that you should choose something you've never read before.) Remember that a memoir is not the same thing as an autobiography. The basic difference is that an autobiography covers the span of a person's whole life whereas a memoir tells the story of a **slice of one's life**. Ask me if you have any doubts.
- ❖ Look for evidence of Gladwell's thesis at work within your memoir.. How did the memoirist become such an outlier? Take thorough notes.

Assignment #3:

- Ask someone you admire to recommend a book (s)he thinks you should read. When you finish reading, type a 2-page essay that explains why (s)he probably thought the book was a good fit for you. Be sure to use evidence from the text to support your response. **Include an MLA-formatted Work Cited page.**
