October 19, 2018

Dear Parents/Guardians,

I am writing to provide you with an update on our current Capital Project. Below is information regarding work we anticipate completing over the next two weeks.

Regarding ongoing construction, over the next two weeks we anticipate that contractors will:

- Continue balancing the new heating system at the Elementary School. This involves checking the hardware associated with the new system, and the software used to control the new system.
- Continue installing ductwork in the hallways in the Elementary School and in the areas near the JSHS Library. Please note that the heating system in the older part of the Elementary School will not be upgraded until the summer of 2019.
- Continue installing new doors at the Elementary School and the Junior Senior High School.
- Finish tiling in the remodeled bathrooms near the JSHS lobby.
- Begin installing toilets and sinks in the bathrooms near the JSHS Lobby.

Regarding upcoming recent and upcoming third party inspections of our schools:

- Our board appointed OCM BOCES Safety Officer will conduct the annual fire inspection of the Elementary School and the Junior Senior High School sometime during the next two weeks.
- The manufacturer of the roofing materials will inspect all of the new roofs, to certify the manufacturer's warranty, within the next week.
- Final inspection of areas impacted by the removal of old fuel storage tanks has been completed. All results came back clean.

If you have any questions or concerns regarding our ongoing Capital Project, or the safety of our students during this Capital Project, please feel free to contact either of our building principals, or me.

Sincerely,

Robert J. Hughes  
Superintendent of Schools
