August 2, 2019

Dear Parents/Guardians,

I am writing to provide you with an update on our current Capital Project. Below is information regarding the Capital Project related work we anticipate completing this summer.

During August, we anticipate that contractors will:

- Complete the installation of our new Elementary School playground.
- Complete the installation of the new heating system in the 1930's portion of the Elementary School.
- Complete the switchover to the new fire alarm systems at the Elementary School and the Junior/Senior High School.
- Complete the installation of the new sign near the Junior/Senior High School entrance.
- Complete the installation of new cabinetry in the main offices in both buildings, in the Junior/Senior High School mail room, and in the Junior/Senior High School Library.

Please note:

- Our Board appointed OCM BOCES Safety Officer conducted air quality particulate testing in the Elementary School and the Junior/Senior High School on July 18<sup>th</sup>. The particulate counts in all areas tested were well below OSHA permissible exposure limits.
- We anticipate most of the construction work will be completed by the end of August. Any remaining construction work will be done during non-school hours, once the 2019-20 school year has begun.

I will be posting another letter to the community at the end of August, to provide an additional update on construction related activities.

If you have any questions or concerns regarding our ongoing Capital Project, or the safety of our students during this Capital Project, please feel free to contact either of our building principals, or me.

Sincerely,

Robert J. Hughes  
Superintendent of Schools
