

On Thursday, July 26th, paving of the circle in front of the building will begin. Families needing to come to the main office or counseling office will need to park in the regular lot at the south end near the athletic entrance. Families will then need to proceed to the sidewalk between the building and the greenhouse and follow it to the entrance on the west wing of the building. Signs will be placed directing you to the offices from there. It is always beneficial for families to call before coming to school to make sure the person you wish to speak to is in the office.
