---

*Each item found in violation is reported below along with the code requirement.*

**NO CRITICAL VIOLATIONS REPORTED**

---

**NO ADDITIONAL VIOLATIONS REPORTED**

---

**Additional Information Collected During Inspection**

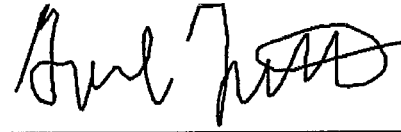

**Comments:** Complaint investigation conducted at this time concerning air quality and an accumulation of dust in the food preparation/service areas. A partial inspection of the kitchen and cafeteria area does not reveal any evidence of an accumulation of dust. Kitchen staff states that all wall, ceiling and floor renovations in the immediate area are complete. Staff also confirms that renovation work was never conducted when school was in session and that thick plastic curtains were installed to prevent dust from entering into the preparation areas. All food equipment surfaces, walls and floor were thoroughly washed and sanitized prior to operating during regular school hours.
